

Carpet Works

LAYING THE FOUNDATION FOR A LASTING RELATIONSHIP

We walk all over it, drag things across it, spill food and drink on it, kids and pets track mud in on it, and while it's the biggest single element in any room, how much time do we really spend caring for it? "It" is our flooring, of course.

Whether you have wood/laminate, carpet, tile, or vinyl – Carpet Works is a full service provider. From working with you to choose the best medium for your lifestyle and budget, to the professional installation, and finally to the routine cleaning and maintenance of your flooring choice in the years that follow, the staff at Carpet Works uses their over fifteen years in the flooring industry to serve all of your flooring needs.

From your first visit to the Carpet Works showroom, which may actually be in your own living room, you are assigned your own flooring consultant who will be your guide throughout the entire installation process - and beyond - to the care and maintenance that follows through the years. As colors and textures look different in the showroom than they do in your own home, owner, Kevin Yarbrough stresses the importance of comparing flooring samples in the environment in which they will reside permanently. Therefore, sending samples home with their clients and/or meeting with them in their home or business is key to having satisfied customers. Kevin says, "Our motto is – If you can't come to our showroom, we will bring our showroom to you." Once in your home, your personal flooring

consultant will work with you to consider your family, lifestyle, and budget to determine the best choice for you, before measuring and providing you with a free in-home estimate.

Carpet Works is a family owned and operated business. Kevin, with his wife Hannia, first started in the carpet cleaning industry over fifteen years ago. Spending that time cleaning and maintaining the carpets, it soon became clear that the maintenance is a lot easier and the life of the carpet longer if it was installed properly from the start. This realization soon evolved into a full-service flooring company.

As their showroom demonstrates, Carpet Works has an extensive selection of flooring choices, carrying most national brands. Kevin believes that as a business owner, it is important to stand behind the work you do and therefore offers a Lifetime Installation Guarantee on all flooring installed by them, as long as the customer uses them to clean and maintain it.

"A guarantee is only as good as the company providing it, and we're in it with you for the long haul." Kevin explains.

Customer Linda Driggers called on Carpet Works to install wood laminate in her home and has been "extremely happy with the installation

from start to finish." Driggers adds, "My husband and I like to deal with a local company and we found Kevin and Hannia to be honest and accommodating. I have two more rooms that I need done, and I plan to use them again."

Jaret Whitney, Owner of Exit Realty in Mount Dora, echoes Drigger's satisfaction of Carpetworks. "I had an investment property that needed new carpet quickly, to be installed in between renters. I called Carpetworks and they came out right away. I had new carpet installed in three days. They were great."

Carpet Works is located at 3101 Kurt Street in Eustis or can be reached at 352-589-2922.
